## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to a method of forming etched semiconductor waveguide, classified in class 438, subclass 31.
- II. Claims 23-30, drawn to a semiconductor planar waveguide, classified in class 385, subclass 129.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the waveguide claimed in Group II can be made by mechanically cutting.
